

BROAN *Elite*

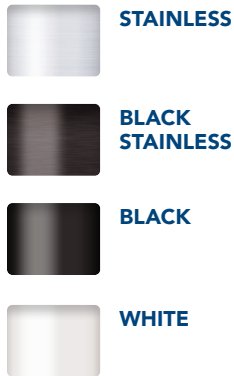

Every kitchen needs ventilation. Here's why.

The fact is, the kitchen is a primary source of indoor air pollution. According to the EPA, indoor air can be up to five times more polluted than outside air, which means adequate ventilation is critical to a more comfortable and healthier home. Broan has performance-matched ventilation solutions for every cooking style and range beneath it. Whether a focal point of your kitchen or concealed in custom cabinetry, trust Broan—the leader in residential ventilation—to provide elegant and powerful range hood solutions.

There are more reasons than ever to partner with the leader in kitchen ventilation!

Turn to the Broan Elite product line for:

- Simplified product offerings
- Unmatched performance
- Exclusive appliance channel products
- Range hood styles to complement any kitchen
- Margin-boosting MAP pricing

Note: The last four digits of the model number is typically the hood width and color.
